

AIRBAG SYSTEM

More enlightened crew safety.

The highly trusted airbag system used in fire apparatus is now available on select Road Rescue ambulances. This special airbag system, combined with the exclusive Per4Max® multi-point restraint system, allows EMTs/Paramedics to do their jobs with the confidence of knowing they will be protected in the event of a rollover.* RollTek for Road Rescue was developed in partnership with IMMI®, a global leader in safety.

For more information, contact your local Road Rescue dealer or visit www.roadrescue.com.

Airbags shown for illustrative purposes only.
Placement depends on the specific configuration of each ambulance.

Rolltek®

AIRBAG SYSTEM

Available as optional equipment on most
Type 1, Type 3 and Medium Duty ambulances.

RollTek® Features

- Improves the chances of walking away from the deadliest type of crash EMTs/Paramedics can face—a rollover*
- Combines side airbag protection with Per4Max® seat belts
 - Per4Max is the exclusive 4-point restraint system with controlled deceleration which provides EMTs/Paramedics more freedom to do their jobs while safely buckled in
- RollTek cushions the head and neck in a rollover
 - Deploys in the blink of an eye (0.25 seconds) to significantly reduce the potential for serious injury or death in a rollover crash*

- Developed in partnership with IMMI®, a global leader in safety
- Meets or exceeds all safety standards for ambulances, fire apparatus and commercial trucks*
 - Extensively tested by the Center for Advanced Product Evaluation (CAPE)
- Available for most crew positions in the back of the ambulance¹

¹Depending on specific ambulance seat and cabinet positions

Brilliance™ Advanced Vehicle Lighting

With Brilliance Advanced Vehicle Lighting, every element has been seamlessly engineered to bring safety to light. Our lighting is designed as an integral part of the Road Rescue experience. Brilliance delivers a striking, illuminating appearance with an aspiring level of safety on the road.

CurveForce™ Formed Corners

Road Rescue's signature, formed aluminum body corners utilize proprietary engineering that produces an exceptionally strong corner structure with a clean, smooth, continuous radius. Requiring only one welded seam at each corner reduces corrosion potential while creating a distinctive, well-rounded appearance that commands attention.

CrewGuard™ Body

We engineer the CrewGuard Body with CurveForce Formed Corners and our exclusive ladder design frame for increased strength, durability and safety. The Road Rescue CrewGuard Body rises to the challenge at every turn.

ER-inspired Design

The ultimate crew performance is only possible in the ultimate crew environment. The ER-inspired interior provides the experience of already being at the hospital. Crews appreciate the intuitive, ergonomic design that makes navigating around patients effortless.

Road Rescue, In Service for Life.™

Our dedicated, national dealer network makes our premium vehicles available across the U.S. and Canada. We work closely together to provide training, parts, professional service and ongoing aftersales support for years. With some of the best warranties in the business, we stand behind all our vehicles.

Contact our sales team at 407-754-7181, or find your local dealer at www.RoadRescue.com/dealer-locator.
